Chairwoman - Dr. Nguyen Thi Phuong Thao awarded the title of Labor Hero

On December 27, in the inspiring atmosphere of the 11th National Patriotic Emulation Congress, the Communist Party of Vietnam and the State solemnly conferred the title Labor Hero upon Chairwoman Dr. Nguyen Thi Phuong Thao - a female entrepreneur with continuous and dynamic contributions across many fields. This honor pays tribute to a new generation of Vietnamese entrepreneurs - those who embody global integration, technological thinking, a spirit of service, and a strong aspiration to elevate the nation's standing in an era of national rise.

Over more than three decades of dedication and contribution, Dr. Nguyen Thi Phuong Thao has left a profound mark on key pillars of the economy, including aviation, finance and banking, investment, and technology. Alongside her business pursuits, Chairwoman - Dr. Nguyen Thi Phuong Thao has remained steadfast in her commitment to a humanitarian mission. From social welfare programs supporting women, children, and vulnerable groups, to educational initiatives and international scholarships, her efforts have been wide-ranging and impactful.

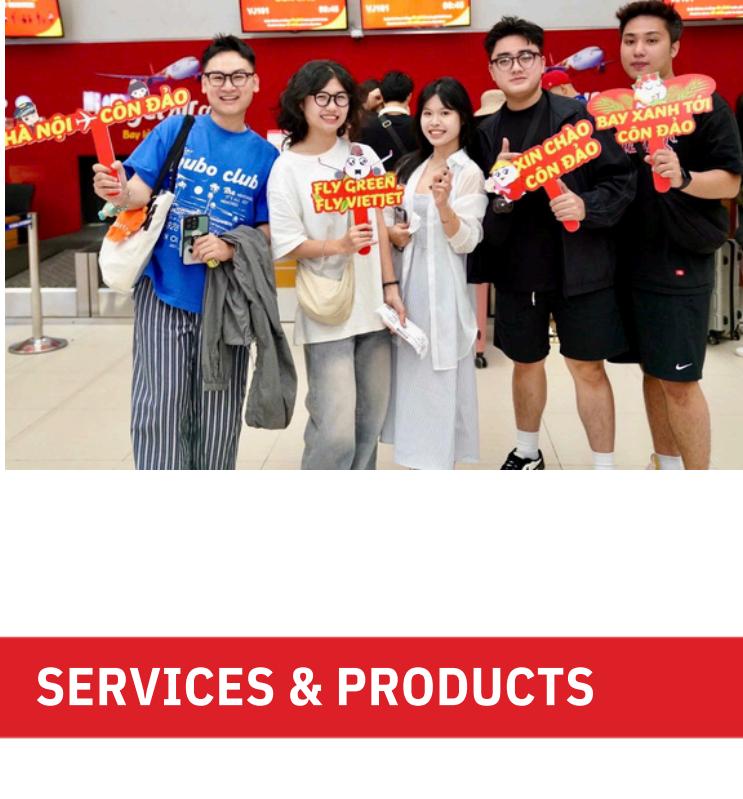

The Next Generation Aviation Universe: Empowering Aviation, Inspiring the Future

On December 24th, the special flight VJ2026, named "The Next Generation Aviation Universe: Empowering Aviation, Inspiring the Future," took off. This event not only celebrated Vietjet's birthday and the first flight's launch on Christmas Day, but also served as a gathering for the Vietjet family to reflect on a year of resilience and ambition; a space for connection where generations of Vietjet employees shared pride and embarked on a new journey in 2026 - stronger, more innovative, and more inspiring, looking towards the future.

The special flight was attended by the Chairwoman - Dr. Nguyen Thi Phuong Thao, CEO Dinh Viet Phuong, Managing Director Nguyen Thanh Son, along with members of the Board of Directors, Board of Managers, heads of divisions, representatives of member companies, partners, and 9,000 Vietjet, Vietjet Thailand, and Vietjet Kazakhstan employees from 66 countries and territories, participating in person and online via the Viva Engage platform. With pioneering spirit, innovation, and the strength of the team, in 2026, Vietjet is determined to accelerate development, innovate, apply technology, expand its flight network, and bring new, high-class products and services, creating more sustainable and better value for people, passengers, and the community.

Vietjet tops out international-standard hangar, operates first flight to Long Thanh International Airport

On December 19, Vietjet today marked two major milestones at Long Thanh International Airport with the topping-out ceremony of its international-standard aircraft maintenance hangar project and the operation of its first flight to the new airport, reaffirming a strategic step forward in the airline's investment in modern and sustainable aviation technical infrastructure.

Vietjet's aircraft maintenance hangar project, commenced on August 19, 2025, is part of the Long Thanh Aircraft Maintenance and Engineering Center, with a total investment of up to USD 100 million and covering an area of 8.4 hectares. In just 4 months, the project completed its topping-out ceremony on schedule under challenging construction conditions, affirming Vietjet's ability to implement projects quickly, with discipline and high determination, along with its international partners.

In parallel with infrastructure development, Vietjet successfully operated its first flight to Long Thanh International Airport, a significant event attended by Standing Deputy Prime Minister Nguyen Hoa Binh, along with leaders of ministries, sectors and relevant authorities. Thorough preparation, modern equipment and a highly professional flight crew ensured a safe, comfortable and well-executed flight.

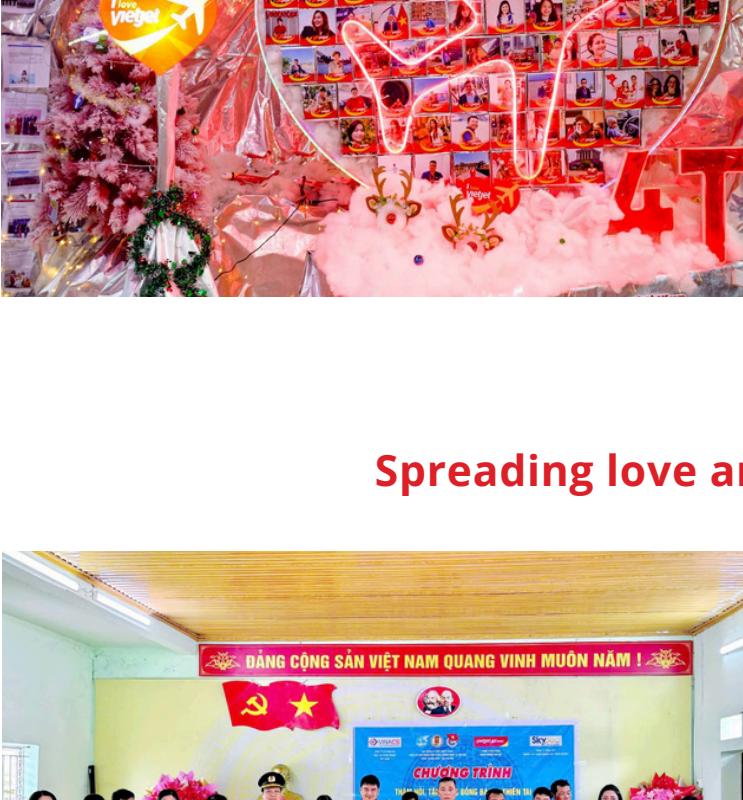

The future of aviation: Safety, Green Transformation, and AI Applications

On the morning of December 10th, Standing Vice President To Viet Thang participated in the 3rd International Aviation Future Conference (AFCS 2025) themed "Aviation Future: Challenges and Solutions," which opened in Ho Chi Minh City. The event attracted hundreds of experts, managers, and representatives from domestic and international aviation organizations, discussing sustainable development solutions in the context of a rapidly growing industry, moving towards green transformation and the application of artificial intelligence (AI).

At the conference, Standing Vice President To Viet Thang shared his approach to safety assessment based on risk management within the framework of IOSA (IATA), providing practical insights that contribute to improving the effectiveness of safety management and aviation operational quality.
