Vietjet with strategic activities contributes to marking a new milestone in the Vietnam - UK cooperation relationship

On the occasion of Party General Secretary To Lam's official visit to the UK - a historic milestone marking the upgrade of the relationship between the two countries to Comprehensive Strategic Partnership - the working delegation led by Chairwoman - Dr. Nguyen Thi Phuong Thao had many important activities and cooperation agreements from October 28 to October 30.

In the presence of Party General Secretary To Lam, along with Vietnamese and UK leaders, Vietjet signed and handed over a contract for 100 A321neo aircraft with Airbus; and signed a contract for 92 Trent 7000 engines, including comprehensive maintenance services worth USD 3.8 billion, with Rolls-Royce. Vietjet and the University of Oxford also announced the results of their joint research initiative on Net Zero solutions for global aviation, as well as the launch of the Oxford Pioneer Scholarship Scheme.

Vietjet orders 100 Airbus A321neo aircraft

Vietjet and Rolls-Royce sign an agreement for Trent 7000 engines

Vietjet and the University of Oxford announce Net Zero Research Findings

Announcement of the Pioneering Scholarship Fund

On October 30, Vietjet and Airbus officially exchanged the contract for 100 A321neo aircraft at the Vietnam-UK High-Level Economic Conference. The event marks a new milestone in expanding collaboration in aviation, technology, and investment. The aircraft order is expected to generate hundreds of thousands of jobs in the UK and Europe, while enabling Vietjet to modernize its fleet, reduce emissions, and expand its international network toward a Net Zero goal.

Vietjet Chairwoman Nguyen Thi Phuong Thao said: "This is not merely a commercial contract, but a symbol of trust, aspiration, and a shared vision for sustainable development and global connectivity."

Vietjet and Rolls-Royce have entered into a landmark agreement for 92 Trent 7000 engines, together with comprehensive maintenance services, valued at USD3.8 billion. The Trent 7000 engines, known for their efficiency and advanced technology, will power Vietjet's upcoming fleet of 40 A330neo aircraft, enabling the airline to operate non-stop services to Europe in the future.

This significant agreement will enable Vietjet to enhance operational performance, reduce emissions, and deliver safe, modern, and comfortable services for passengers.

It will also create more jobs in the United Kingdom, promote innovation in aerospace technology, and strengthen economic and investment ties between Vietnam, the UK, and Europe.

Vietjet and the University of Oxford have released findings from a landmark study on Net Zero solutions for global aviation, part of Vietjet's long-term "Fly Green" sustainability campaign. By adopting Sustainable Aviation Fuel (SAF), carbon offset programmes, reforestation, renewable energy investments, and AI-based operational efficiencies, the airline has reduced average emissions per passenger by 38% compared with previous-generation aircraft.

The project, led by Professor Myles Allen, Director of Oxford Net Zero, focuses on Geological Balance Fuel (GBF) - an innovative form of aviation fuel where carbon emissions are offset through the long-term geological storage of CO₂. Initial findings suggest that GBF could provide a practical pathway for the aviation sector to achieve Net Zero emissions by mid-century.

At the University of Oxford, the official launch of the Pioneer Scholarship Fund marked a new milestone in educational and scientific cooperation between Vietnam and the United Kingdom. With initial funding of £17.83 million, the programme will provide long-term postgraduate study and research opportunities for outstanding scholars, prioritising candidates from Vietnam.

Representing the scholarship recipients, Ms. Ham Minh Phuong, shared: "The Oxford Pioneer Scholarship has given me the opportunity to study and grow in one of the world's leading research environments - dynamic, creative and inspiring. With generous financial support worth billions of Vietnamese dong each year, Vietnamese students can pursue their studies with confidence and motivation, striving to contribute meaningful research to humanity."

Dr. Nguyen Thi Phuong Thao and Vietjet leave a strong mark on the country's journey of innovation - integration - reaching new heights

Chairwoman - Dr. Nguyen Thi Phuong Thao and Vietjet were honored as outstanding entrepreneurs and businesses reaching new heights in the country's journey of innovation - integration - reaching new heights at the 3rd Vietnam New Economic Forum (VNEF) co-chaired by the Central Policy and Strategy committee and the Vietnam Economic Science Association on October 2.

The recognition of Chairwoman and Dr. Nguyen Thi Phuong Thao, along with Vietjet, as outstanding entrepreneurs and enterprises reaching global stature affirms their success in international markets, standing shoulder to shoulder with world powers in the new era of national development. It also strongly underscores the central role of Dr. Nguyen Thi Phuong Thao and Vietnamese entrepreneurs in shaping the future development of the country.

Strengthening cooperation with Spring Airlines

On October 23-24, 2025, a Vietjet delegation led by BOD Member, Vice President, and CFO Ho Ngoc Yen Phuong paid a visit to Spring Airlines in Shanghai, China. Spring Airlines Chairman Wang Yu personally welcomed the Vietjet delegation and extended his regards to Chairwoman Nguyen Thi Phuong Thao.

During a working session with Spring Airlines Vice Chairman, Board Secretary, and CFO Chen Ke, leaders from both sides discussed opportunities to enhance commercial cooperation, expand fleet development, and share experiences in management and technology.

Airways Aviation will collaborate with Vietjet Aviation Academy (VJA) to implement international pilot training programs in Europe. These training will comply with regulations from International Civil Aviation Organization (ICAO), Civil Aviation Authority (EASA), and the European Union Aviation Safety Agency (EASA).

Civil Aviation Authority of Vietnam (CAA) will also create more jobs in the United Kingdom, promote innovation in aerospace technology, and strengthen economic and investment ties between Vietnam, the UK, and Europe.

On the 23rd, Vietjet and Spring Airlines signed a memorandum of understanding (MoU) to establish a joint venture in the field of aviation services.

On the 24th, the two airlines will sign a strategic cooperation agreement to further enhance their partnership.
