Passenger and cargo transport by

country's aviation sector.

Vietnamese airlines remained stable and recorded strong growth during the holiday period. The launch of Terminal T3 at Tan Son Nhat International Airport, along with the implementation of facial recognition technology via the VNeID app at T3 (Tan Son Nhat) and T1 (Noi Bai), enabled passengers to complete quickly procedures without presenting identification documents.

 * The Civil Aviation Authority of Vietnam has requested Airports Corporation of Vietnam (ACV) to

urgently develop a service pricing plan for Long Thanh Airport. The runway at Long Thanh Airport has been completed and is ready for calibration flights. * The People's Committee of Nghe An Province has requested that the Ministry of Construction report to the Prime Minister, seeking approval for ACV to allocate legal capital to extend the runway at Vinh International Airport.
